QuickLaunch Crack With License Code

How do you usually find out when you've just had a message with an urgent task? You check your desk-lamp or the mail box or maybe the telephone book or even your fridge. You have to look for the telephone number or address of the person you want to call. The more urgent the task the more you are usually looking for the task description. You don't want to waste your time looking for information. You just want to find it quickly. To help you with the job we have created QuickLaunch Product Key.

QuickLaunch is an application which permits you to create shortcuts to all of the files, folders and web pages that you use frequently. You can then access them very easily - with 2 clicks! - straight from the QuickLaunch tray bar icon. With QuickLaunch you can also schedule programs to launch automatically at either a pre-determined time, or have them launch automatically when your computer is starting up (booting). Do you sometimes forget something? You can also have QuickLaunch to send you, your own hand-typed reminder notes on a routine schedule, or at any pre-determined time of your choosing. Too many programs or services starts on reboot, QuickLaunch gives you the ability to manage them. Here are some key features of "QuickLaunch":
☑ Save time - Did you know that people usually spend 30% from their time just finding the programs or documents they want to open.
☑ Clean up your desktop - The simplest and the fastest way to quickly launch a program or open a document is to place a shortcut to it on the Desktop or in the Quick Launch bar. But in time, you'll find out that your Desktop is filled up with lots of shortcuts which you hardly ever used and is like a scrap-heap.
☑ Reminders - QuickLaunch can show you a dialog with your message (reminder) based on a scheduler.
☑ Automate tasks - Besides other quick launch tools QuickLaunch allows you to add any kind of items : Programs, Links and shortcuts to folders but also group of tasks you can also schedule or run with one click.
☑ Check your mailbox - QuickLaunch will notify you when a new message arrives in your mailbox. You don't have to keep Outlook Express or any other email client opened all the time to hunt new incoming emails.
☑ Dial/Hang-up - Maybe you want to stay connected to the internet just within an hour range,
